Subject: Bring the Target to Hollywood and save jobs!

To: councilmember.ofarrell@lacity.org

Councilmember O'Farrell,

I find it repugnant that a so-called "neighborhood association" could work with a lawyer known to stop or slow virtually every development in Hollywood and bring yet another project to a halt.

The Target store at Sunset and Western is long awaited, and will help to improve this neighborhood. It also brings precious jobs and economic vitality to an area of Hollywood that has been blighted.

Whether it is seeking an appeal of the lawsuit, or revising the SNAP ordinance, or both, I support your efforts.

The SNAP height restrictions make no sense in a transit oriented community like Hollywood, and it is a waste to only build to two or three stories along key traveled corridors.

I will do my best to generate a chorus of neighborhood voices to underscore that the plaintiffs in this lawsuit are NOT looking out for the interests of this neighborhood first and foremost.

Kerry Morrison
